

Sharing Nuclear Secrets

Trust, Mistrust, and Ambiguity in Anglo-American Nuclear Relations Since 1939

Nuclear alliances are high stakes partnerships with the potential to enhance security, goodwill, scientific and technical innovation, and economic well-being; or, they risk a state's very existence, generate social and political unrest, and fracture frameworks for international cooperation and jeopardize global reputations. Now entering its eighth decade, the Anglo-American nuclear alliance is the oldest and most complex in the world. *Sharing Nuclear Secrets* is the first comprehensive single-volume study of the Anglo-American nuclear relationship, illuminating both its fragility and durability.
